

LEOZEN

SOLID WOOD TREND SIDEBOARDS

Backed by 13mm thick plywood, we have transformed our super matte finish laminate into some trendy sideboards decorated with solid timber. Here comes the cycle to make wood a contemporary decoration for interiors with a mixture of different materials, creating a simple, natural look where people can enjoy the atmosphere of relaxation, and a zen-inspired space.

APPLICATIONS

Wall Panels / Furniture / Cabinet Doors / Interior Doors

SIZE N DESCRIPTION

Base 1220mm width x 2440mm height x 13mm thick plywood board

HPL 0.7mm / 0.8mm / 1mm thick

Timber 10mm x 10mm

Wood Oak / Ash / Walnut

Coating Water-based paint

INSTALLATION

To install the boards on wall, simply glue the sideboards on a flat and smooth surfaced wall and hold it overnight.

For furniture and cabinet doors, we can custom make a sideboard with laminate at the back side with PVC edges on the sides.

For cabinet doors, it would be better to increase the thickness of the sideboards into 18mm for the ease of making hinge holes.

CLEANSING

Simply clean the sideboards with damp cloth, avoid using strong cleansing agents as the coating of the timber could be damaged.

OAK

ITEM CODE	LEOZEN-103OAK
TIMBER	Oak with water-based paint
LAMINATE	TOPPAL DH103
FINISH	Super Matte / Anti-fingerprint

ASH

ITEM CODE	LEOZEN-287ASH
